Self Definition

The nearly endless possibilities with javascript and its frameworks fascinate me so I'm excited to improve my knowledge, searching for a company that helps me in that. I'm patient, easy-going which helps me get through coding problems easier. Thanks to being player in a basketball team, my teamwork abilities are good enough to be a valuable member of any team that is willing to improve together.

Strength

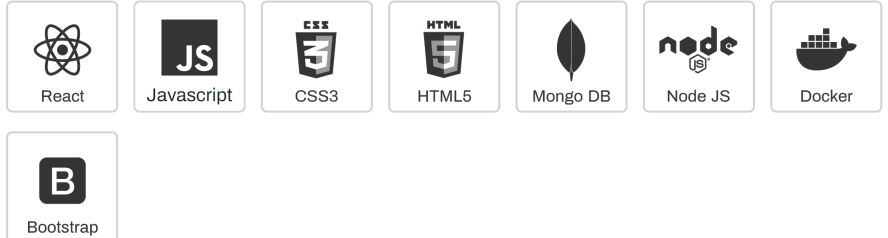

I really enjoy using React, this framework is used in my portfolio too. Working as a graphic designer for 2 years helped to have a good eye for the best design patterns and always being up-to-date.

Mentor Opinion

"Ricsi is a developer who's able to plan a project end-to-end. From planning to execution. He has great eye for design. During technical discussions he speaks clearly, asks relevant questions and can incorporate advice into his project on his own."

— **Bence Fabian**, mentor

Skills

Recent Projects

PSYCHOLOGY WEBSITE

<https://github.com/4rrichard/psychology-website>

Psychology website where you can book appointments with the therapist. After booking a confirmation email is sent and the booked time is disabled. An admin page is implemented where the admin have right to free up cancelled times and upload blog articles. (Technology used: Frontend: React JS, CSS, Backend: Express, Node) The website is still in progress but can be seen at: <https://psychology-website.netlify.app/>

WEATHER APP

<https://github.com/4rrichard/weather-app-team-project>

The app was a part of a team project. The app gets the data from an API and shows the current weather conditions and an image(from pexels) of the searched city. I learned about API fetching, React states and the Effect hook. The app can be seen at: <https://weather-app-codecool.netlify.app/>

URL SHORTENING APP

<https://github.com/4rrichard/url-shortening-app>

With the help of an API the copied URLs can be shortened by one click. In this project I focused mainly on learning about React states and how an API functions. The website can be seen at: <https://url-shortening-shortly.netlify.app/>

Work Experience

Supply delivery (2021 - 2022) — Turul Padló Kft.

Graphic-designer (2019 - 2021) — Koolidea

Photography/graphic-design (2019 - 2020) — Élménypont Kft.

Hostess Coordinator/Office Manager (2018 - 2019) — Inspiration Hostess

Call-center operator (2017 - 2018) — OTP Bank

Educations

Frontend Developer (2022 - 2022) — CodeCool

Graphic Designer (2020 - 2021) — SooterLine

Recreation and Health Promotion Manager (2015 - 2020) — University of Physical Education

Commerce and Marketing (2014 - 2015) — Budapest Business School

High-school graduation/engineering qualification (2008 - 2014) — Újpesti Bilingual Technical School

Spoken Languages

Hungarian — Native — English — Upper Intermediate — German — Basic
